**INTERVIEW AGENDA
(Wednesday 7/25/07)**

1. Consideration of IDS of March 12, 2004 and August 26, 2005

2. Regarding 103 Rejections, the cited references Nam and Bowker, individually or in combination, are silent as to the delivery of video stream data from the buffer under the two conditions, e.g., (1) without starting a new connection between the relay apparatus and the server and (2) where a connection has been established between the relay apparatus and the server for a different second client.

3. In the 103 Rejections, the Office Action does not properly address the claim language as a whole, particularly with respect to the delivery of the video stream data and the conditions upon which this delivery occurs, but rather addresses the claim language in an arbitrary piecemeal fashion.
